

# MEDIAFLUX<sup>®</sup>

MADE BY ARCTECTA<sup>®</sup>

OPTIMISE THE WORKFLOWS OF VISUAL EFFECTS (VFX), ANIMATION AND POST PRODUCTION ON MEDIAFLUX: **SMARTER DATA STORAGE WITH MORE FLEXIBILITY.**

Mediaflux performs as a rapidly adaptable smart-tiered data storage infrastructure that virtualizes all storage classes into a single unified view for more flexible data management workflows that support creative processes across the entire supply chain.

# MANAGE ASSETS. NOT FILES.

## ADAPTABLE SMART TIERED WORKFLOWS

Use Mediaflux to orchestrate a rapidly adaptable smart tiered data storage infrastructure using policies controlled by rich metadata.

## CREATE MULTIPLE CUSTOMISED FOLDER HIERARCHIES

Present customised views of data for different departments via NSF and SMB to simplify queries.

## SINGLE WORLD-VIEW OF ALL YOUR STORAGE

Federate all storage classes into a single world-view to manage billions of assets and files.

## FIND ASSETS ACROSS ALL STORAGE SILOS

Metadata extraction and search locates hard-to-find assets, no matter where they are stored by querying asset specific metadata.

## FUTURE-PROOF NEW STORAGE TECHNOLOGY ONSET

A powerful foundation stack for whatever standards and formations you use now, or any other system and workflow you might use in the future.

## RESTRICT ACCESS TO PROTECT ASSETS

Mediaflux can compartmentalise asset access and records and monitors who has accessed what asset, providing detailed audit trail reporting.

## LEVERAGE CHEAPER STORAGE

A single world view of all disparate data and plenty of metadata means that you can automatically place data in the best storage that provides the lowest overall cost at any point in time.

## ABOUT ARCITECTA

Arcitecta was founded to create the best possible technology for handling all forms of data, to provide the capability to solve the most demanding data management problems with the simplest possible solutions.

We provide the right data, in the right place, at the right time, to ensure you realise the maximum value from your data.

**We solve the problems others cannot.**
